

Investment Analyst – Private Equity

ARC Financial Corp. (“ARC”) is seeking a full time Investment Analyst to join its Investment Team. The role will initially be focused at least 75% on energy transition opportunities.

With over \$6.6 billion of investor commitments across twelve funds, ARC is Canada’s largest energy-focused private equity manager. ARC invests in high-quality management teams that have unique business plans that span the North American energy spectrum.

ARC leverages its world-class domain expertise, energy capital markets acumen, extensive industry relationships, and rigorous investment management practices to steward investment capital with the highest standards of diligence and integrity. ARC prioritizes cultivating enduring partnerships and fostering top-tier relationships with portfolio companies, investors, service providers, and the communities we invest in.

Opportunity

As a member of the investment team, you will have the opportunity to work in a team-based environment with meaningful exposure to the energy transition side of ARC’s business. The diverse technical and financial background of ARC’s team and the wide range of daily activities will ensure that you are exposed to all aspects of the business. Some of your roles and responsibilities will include:

- Assisting in the screening and due diligence process of new investment opportunities, with an emphasis on energy transition and power/electrification themes
- Building, maintaining, and evaluating financial models (including the application of relevant valuation techniques)
- Conducting research and analysis for investment opportunities
- Supporting the management of existing portfolio companies and contributing to foundational analytical work alongside other members of the investment team
- Supporting colleagues who represent ARC on portfolio company boards, typically in an observer capacity
- Preparing, summarizing, and presenting reports at quarterly valuation meetings
- Corporate financial and asset transaction analysis
- Maintaining our industry and investment benchmarking databases
- Presenting materials and facilitating discussions in internal and external meetings

Qualifications

- An undergraduate degree in engineering, business/commerce, economics, or a related field
- Two to five years of relevant experience, with a background in investment banking, A&D, corporate development, consulting, or engineering within the energy sector
- Experience in power or electrification is considered a strong asset
- A genuine interest in the energy industry and a desire to build a long-term career in private equity at ARC
- Advanced financial analysis and modeling skills
- Strong communication and presentation abilities
- Excellent interpersonal skills, sound judgment, and a strong desire to be a team player, including a willingness to take on foundational tasks in support of the broader team
- Ability to work in a fast-paced, detail-oriented environment
- Enrollment in, or completion of, the CFA program considered an asset

Interested candidates should e-mail a resume and university transcript to: jobs@arcfinancial.com
Please include the position title in the subject line of the email.

Applications will remain open until 4:00 p.m. on October 2, 2026. We appreciate your interest in the position; however, only candidates selected for an interview will be contacted.
