Summer Analyst | May - August 2027 (with potential extension to December 2027) | Energy Private Equity (Investment & Research)

ARC Financial Corp. ("ARC") is seeking an intern to jointly work between its investment & research teams for Summer 2027.

With over $6.6 billion of investor commitments across twelve funds, ARC is Canada's largest energy-focused private equity manager. ARC invests in high-quality management teams that have unique business plans that span the North American energy spectrum.

ARC leverages its world-class domain expertise, energy capital markets acumen, extensive industry relationships, and rigorous investment management practices to steward investment capital with the highest standards of diligence and integrity. ARC prioritizes cultivating enduring partnerships and fostering top-tier relationships with portfolio companies, investors, service providers, and the communities we invest in.

Opportunity

Working in a team-based environment with our investment professionals, you will have the opportunity to develop the skills required to be successful in a career in capital markets and/or the energy sector. Our team's diverse technical and financial background and our wide range of daily activities will ensure that you are exposed to all aspects of our business. Some of your roles and responsibilities will include:

Investment Focus:

- Assisting in evaluating new investment opportunities through financial modeling and company/industry research
- Monitoring portfolio companies by conducting operational and financial/valuation benchmarking analyses
- Managing and maintaining internal models and databases
- Completing routine and ad-hoc investor requests

Research Focus:

- Conducting energy systems and market research, including supply, demand, policy, economics, and greenhouse gas emissions
- Preparing, presenting, and writing internal reports on research results
- Attending and participating in internal energy research meetings
- Providing ad-hoc support to the research team as needed

Ideal Traits/Skills

- Minimum of two years completed in a Business, Economics, Engineering, or other relevant undergraduate degree
- Strong communication and presentation abilities
- Excellent interpersonal skills and a strong desire to be a team player
- Ability to work in a fast-paced, detail-oriented environment
- Knowledge of Microsoft Office applications (Excel, PowerPoint)
- Working familiarity with AI tools and an interest in applying them to research, modeling, and analysis workflows
- Availability for an eight-month term (May through December 2027) is an asset but not required

Interested candidates should e-mail a resume and university transcript to:

ARC Financial Corp.
